

DTIC Online

DTIC is the Defense Technical Information Center. They have the charter to collect and disseminate the MSS papers and proceedings. It is far easier to get individual papers, because the entire proceedings are Distribution F and you would need to have “Need to Know” for the entire set of papers, which would be virtually impossible to establish.

The recommended methodology is to search through the MSS agendas to find the title and author information of interest, and copy and paste that into the DTIC online author/title search function. You can also search by keywords or areas of interest without the agendas, and any relevant MSS papers should show up in the results.

<https://www.dtic.mil/DTICOnline/>

**APPLY FOR AN
ACCOUNT HERE**

Your initial account will take a few weeks to get setup; MSS conference goers should generally be able to qualify for it. The speed and ease of online access far exceeds individual libraries of MSS CD's etc., and it provides access to many more non-MSS publications.

Application form

When you request an account, you will get a reply email with a link and a very long token, which you should copy.

Once you click the link and paste in the token, you will get an application screen like this. The key items will be to have your Contract number, Cage code and a government sponsor whom will approve the request. This is the same as MSS Conference requirements.

You can apply for Unclassified Only if you do not have SIPRNET access (We have had an error with that fixed).

Additional details - Searching

Once you receive your account and login, you can get to the screen as shown by clicking on “More Search Options”.

This will allow search by author, title, and keyword, with a variety of other options for sorting the results, including by date, relevance, or IAC.

The full record search can be used for keyword searching outside of the title; however, you may want to restrict the DoD Sites & Collections near the bottom to only “Technical Reports” for faster and more technical results.

For advanced searching tips and other related questions contact:
Danielle.Wright@gtri.gatech.edu

The screenshot displays the DTIC Online Access Controlled - Advanced Search interface. The browser window title is "DTIC Online Access Controlled - Advanced Search - Windows Internet Explorer". The address bar shows the URL "https://www.dtic.mil/DOAC/advanced_search". The page header includes the DTIC logo and navigation links: Home, DTIC A-Z, DoDTechpedia, Aristotle, Ask a Librarian, Submit Documents, and Customer Support. The search bar contains "DoD Sites & Collections" and "au:(Devitt)". Below the search bar, there are buttons for "More Search Options", "Bibliography", and "Saved Searches". The main content area is titled "More Search Options" and contains several search fields: "Full Record:" (all of these words), "Title:" (all of these words), "Author:" (all of these words), and "Accession Number:" (any of these terms). There is also an "Add a search field:" dropdown. On the right side, there are options for "Search in:" (Citations and Full Text), "Sort by:" (Newest First), and "Results per page:" (10 results). At the bottom, there are buttons for "Submit", "Clear Form", and "Search Tips". The "Categories" section is expanded, showing a list of categories with checkboxes: "DoD Sites & Collections: select/de-select all", "Services and Agencies", "DoD Wide Science & Technology Web Sites", "DoDTechpedia", "Technical Reports", "Search Tools", "Journal Articles & Conference Proceedings", and "Research in Progress".

Additional details - Searching

To make searching for MSS papers even easier, we have posted online the Final Programs from the past meetings since 2005 to allow you to browse them by session. This can help you get the title and author information, for example, on a paper that you might recall having seen in a Tues afternoon session on Lasers last year.

To do this from the MSS Main page, click on past meetings, which will bring you to the screen as shown. Once there, select the year and meeting of interest and download the pdf. You can then copy the titles of papers of interest, and paste them into the DTIC search function.

The screenshot shows the SENSIAAC (Military Sensing Information Analysis Center) website. The header includes the SENSIAAC logo, navigation links for 'My Account', 'Shared Files', 'Help', and 'Logout', and social media icons for LinkedIn and Facebook. A search bar is also present.

The main content area is titled 'Final Programs For Past Meetings' and contains a table with the following data:

Please select a year and meeting to download the final program	
2012	2011 Joint Symposium (Umbrella event do not submit abstracts to this session) (Oct 24, 2011 - Oct 28, 2011)
2011	Final Program (Download)
2010	2011 MSS Active E-0 Systems (Sep 13, 2011 - Sep 15, 2011)
	Final Program (Download)
	2011 MSS Tri-Service Radar (Jun 27, 2011 - Jun 30, 2011)
	Final Program (Download)
	2011 MSS Electro-Optical & Infrared Countermeasures (Apr 26, 2011 - Apr 28, 2011)
	Final Program (Download)
	2011 MSS Battlefield Survivability and Discrimination (BSD) (held in PARALLEL with the MSS Passive Sensors, Detectors and Materials Speciality Groups) (Feb 28, 2011 - Mar 4, 2011)
	Final Program (Download)
	2011 MSS Passive Sensors (held in PARALLEL with the MSS Battlefield Survivability and Discrimination, Detectors and Materials Speciality Groups) (Feb 28, 2011 - Mar 4, 2011)
	Final Program (Download)
	2011 MSS Detectors and Materials (held in PARALLEL with the MSS Passive Sensors and Battlefield Survivability and Discrimination Speciality Groups) (Feb 28, 2011 - Mar 4, 2011)
	Final Program (Download)
